VOLUME XXII

COLUMBIA, ADAIR COUNTY, KENTUCKY, WEDNESDAY MAY 4, 1910.

NUMBER 26

Johnston-Kelley.

Last Saturday afternoon, at the home of the bride, near Cave Valley, Miss Sallie E. Johnston was married to Mr. W. M. Kelley, the ceremony being solemnly and impressively said by Rev. B. M. Currie, of this place. The bride was costumed in white silk and carried a wreath of white roses. The groom was dressed in conventional black.

Quite a number of friends were present to witness the rite and to extend the hand of congratulation. The attendants were G. W. Candiff and Miss Elizabeth Blevins. The bride is a daughter of Mr. and Mrs. J. T. Johnston, and is one of Adair county's best young women. The groom is a popular and well-known timber dealer. The couple will reside at Cave Valley and will at once begin housekeeping.

Should it be So?

Is it right for a mechanic, if he be honest and reliable, to have to go away from his home town to get a job, when there is plenty of work to do here? and is it proper and doing justice to the working men of our own city for the people who need the services of a mechanic to impart them from other places, when there is just as good ones here who can do the work in the same acceptable manner, as the ones they bring in? Those who preach the patronizing of home talent and industries should practice it to some extent, if they are sincere.

As a matter of fact every man is his own free moral agent, and if he has a building to put up, or a piece of work to do, he can send to Europe, and get men to do his work, if he wishes and then try to make it appear that he is in sympathy with the home working class, all the time. However, that will not count for very much any more, because the mechanics understand. Does the merchants expect their customers from other towns and counties? Or do they expect most of their patronage from the home people? Of course they do! But they should consider the interests of the working man at home from whom they receive most of their cash trade.

Of course, there may be some cases of work necessary in the erection of buildings that cannot be accomplished by the mechanics at home, on account of the lack of advantages, or necessary equipment, and in such cases the procuring of foreign talent is perfectly right, but there is one thing, sure, Columbia has as good architects, contractors, painters, brick layers and other mechanics needed in the construction of a building as there is in any town in Kentucky, considering the size of the place, for home labor first, last and all the time, as every other man should be.

Winning Marked Distinction.

The Rev. Benjamin McDonald Currie has one, if not the most important, charges in the State, both put forth by the oldest church at Columbia, where is located the Lindsey-Wilson Memorial. At the annual meetings of the Louisville Conference, it is said, that if any charge wants a new church or a new parsonage, every effort is put forth to get Mr. Currie, who seems to have been born a builder. He began the building of a parsonage on his first pastorate; completed and furnished one, already begun on his second, and built the handsomest parsonage in the conference at Cloverport, and is planning to build a new one where he is now. Mr. and Mrs. Currie are very fond of young people, and are extremely popular among them, for they, themselves, are young. They have two children, Eudalee and Mary Currie. Mr. Currie is a southern man, was reared in a Christian home, and spent his youth in preparation for the ministry. By A. Louise Bahagge, Cloverport, Ky.

The second base ball team of this place went to Greenville Saturday and crossed bats with the nine at that place. The Columbia boys were in fine shape and could not be headed. They came home victors, the score standing 23 to 10. A News man asked Alvin Lewis if the Greenville club had any members larger than the boys in the Columbia club. "Every one of them are married," came the response.

The subject of Dr. McChord's address will be read before the Adair County Medical Society, Thursday May 12th, will be "Something the Public should know about Medicine and Doctors."

The last week in March and the first three weeks in April, H. H. Grinstead, Co., of this place, paid out \$17,600.00 for poultry and eggs. This is not an estimate, but the bank checks and the above figures.

Death of Mrs. Duval.

Mrs. Nancy J. Duval, who resided at Cave Valley, died last Friday about 11 a. m., a victim of a complication of diseases. The deceased was the mother of Mr. Rose Starks, well-known in this community, and was about seventy-five years old. She was a sister of Mr. Elzy Dameron, who makes his home with his son-in-law, Mr. J. H. Young, this place. Mr. Sam Dameron, who resides at Hustoville, is another brother. Besides the brother she leaves, to our knowledge, two sisters, Mrs. Sam Banks and Mrs. A. H. Judd, who reside at Cave Valley. Besides the daughter, Mrs. Starks, she leaves one son and several grandchildren.

The deceased was a consistent member of the Christian Church and had been for many years. She was a lady who, like the people of Cave Valley had the utmost respect, and her death cast a gloom over the entire community. The News extends its sympathy to those who have sustained the loss of a dear mother and an affectionate sister.

Taylor County Death.

Mrs. Nan Snyder, who was the mother of Rev. Frank Rife, a Baptist minister, who was a pastor of the Church at Cave Valley many years ago, died at Saloma, Taylor county, last Friday. The remains were brought to the Grant Graveyard in this county and interred last Saturday, a great many friends attending the sad rite.

Mrs. T. W. Dowell, whose home was near Camp Knox, Green county, fell dead Wednesday last week. Her daughter, Miss Pearl Dowell, was in the Lindsey-Wilson, and a runner came for her. Some time last year, Dowell removed from the Gradyville section to Green county. Mrs. Dowell was a very fine woman and her untimely death brought sorrow to many homes.

Mr. R. F. Paull received the news last Saturday that his fine brood mare, Elsie Owsley, died at North Middleton, from the effects of distemper. Mr. Paull had sent her several weeks ago to be mated with Bourbon King and was on route contacted. Last Friday Mr. Paull refused \$300 for her, but would not price her. He feels that she was worth \$1500. The young colt by Jordan Peacock is reported in good shape and will be expressed at an early day to Mr. Paull.

Field Day at Lindsey-Wilson next Saturday.

Lisle Bailey, of color, charged with selling liquor, was before Judge Moss last Wednesday morning. Only one witness was examined for the State, but he was sufficient. The jury took the case without argument and in a few minutes returned a verdict for sixty dollars and ten days in jail. Persons who are bootlegging liquor had as well make up their minds to quit the business. The County Judge and County Attorney are determined that whiskey selling in this county is the scourge of the town must stop.

The meeting should be attended by our lawyers, doctors, teachers, officials, preachers, merchants, and men and women in all walks of life who want to see existing evils overthrown.

Base Ball.

The last of the series of games between Lindsey-Wilson and Russell Springs was played on the latter's grounds Saturday, which was the best and most exciting of the three. It was a picturesque battle from start to finish. Up through the fifth innings only one run was made. Then the next three innings were played with the same spirit with R. S. A. a little in the lead. At the beginning of the ninth the score stood five to four in favor of R. S. A. Two men were already out when Hawk came to the bat and on the third swing at the ball he was able to send a nice one base hit in left field. Then Young got another hit placed Hawk on third. Morris brought in Hawk with a two base hit. Then came Rosefield to the bat and sent the ball to its country and brought in the other two together with himself, and in the ninth the Springs earned a two run.

WORTH READING.

A Former Resident of Columbia Writes an interesting Letter From Denver, Col.

Editor Adair County News:

"The man who has caused millions to laugh is dead from his own sorrow." When I came down this morning I found on my desk various accounts of the death of the venerable humorist, Mark Twain, (Samuel L. Clemens,) which strikes deep regret to the hearts of his admirers throughout the world. To remember Mark Twain's writings, ever replete with humor and originality, and himself likewise, and then to think of his great personal grief and the heroic attempts he made to subdue it, fills one with unutterable pathos.

In reading over the newspaper articles I was much interested by the following interview given out by Judge C. C. Goodwin, the veteran editor, of Satt Lake City, and published in the Rocky Mountain News, in which he says: "Mark Twain lacked but six months and nine days of four-score years of age. I know he claimed to be only 75, but when we were in Virginia City, Nevada, Mark was older than I was, and I am 78. Here is the record for it," and he opened a book of biographies by Amelia J. Carver, published in 1889, and in which was written 'Samuel L. Clemens, born November 30, 1839.' In reading the above comment regarding the age of Mark Twain, I was reminded of the fact that I had heard some of the older residents of Columbia say, in days gone by, that they had known Mrs. Clemens, the mother of Samuel L. Clemens, very well and that she had at one time either lived or visited in Columbia. I am curious to know if my memory is correct in this respect, and if Mrs. Clemens was a very old lady at the time.

In commenting upon the literary powers of Mark Twain, Judge Goodwin says: "He was a marvelous humorist, and his books never became stale, because through them there is woven a woof of royal good sense; underneath his humor was held in leash many of the attributes of a statesman. Except for his overpowering sense of humor he might, in another channel, have won fame as a leader of men."

Samuel L. Clemens, known throughout all civilized nations as "Mark Twain," will, unquestionably, be remembered through the ages as one of America's most distinguished geniuses in the field of literature, and he was distinctly our own. His passing will bring sympathizing tears to the eyes of legions of admirers who have wanted nothing better than the opportunity to read his writings. Peace to his shade.

I have often thought of writing you a general letter dealing with the various conditions in the different States of the West in which I have lived and visited, thinking perhaps some would furnish interesting reading for many of your subscribers. Should I find time to do so I am of the opinion that a general description of Colorado and Utah would arrest the attention of your readers more quickly than anything else. I should like just now, while we are having some of our very

beautiful weather, to have the time and be able to give my enthusiasm full play and write a lengthy description of this wonderful State of Colorado.

Imagine the pleasure of living day after day where, visible to the naked eye, is one grand cyclorama of sunshine and snow, majestic mountains, verdant valleys, awesome canyons, beautiful streams tortuously winding their way through hill and dale, and in the center of this picture of nature the great City of Denver, the pride of the inter-mountain country, with its handsome residences, gold-crested Capitol, and stately public buildings—a perspective so wonderful in fact that it is beyond the power of a mere word picture to convey an even vague idea of its grandeur. I could go on on an on like this indefinitely, but to one to whom has never been vouchsafed the pleasure of viewing this panorama my enthusiastic ramblings might seem like the flight of an unbridled imagination, however, I assure you that it is not the case, and to be convinced one has only to carry Mohammed to the mountain.

I have not seen anything in the paper for several weeks concerning the railroad. What is the matter? From all reports I felt satisfied that something would be accomplished in this direction very soon, and I am sorry if interest in the proposition has been allowed to wane. I feel assured that the proposed railroad can be made a reality and I should like to get in and help it along, as it would mean more for the up-building and advancement of Columbia and Adair County than anything else that could possibly happen, and as an evidence of loyalty to the region of my nativity I stand ready under favorable conditions, to invest several thousand dollars in the proposition. If anyone should challenge the sincerity of this statement, I am prepared to demonstrate the fact that I am in earnest by binding any subscription of stock as quickly as other interested parties that have declared themselves.

There seems to be somewhat of a lull as regards things political throughout the country just now, but it is a safe conclusion that such a state of affairs will not continue for any great length of time, in view of the fact that Theodore Roosevelt is expected back in America in the not distant future. The fact that Roosevelt is on his way is creating already a great deal of speculation as to who will be the next Republican candidate for President, also no little uneasiness in some quarters. In my opinion it would be unwise to make a prediction at this time as to who will be the choice of the Republicans in the next national election, having very little information just now upon which to predicate such a prophecy. If the Republicans evince a preference for Roosevelt he will, I believe, be inclined to respond to their call, and in the event that the Republican leaders should feel that they actually need Roosevelt, and can convince him of the fact, it is almost a certainty that he will be their candidate. The receptions that have been accorded Mr. Roosevelt by the monarchs of the old world have undoubtedly had a tendency to magnify his greatness in the minds of a great

many people in the United States, however, this fact will mean very little after he has been home a short while, as he will then be judged politically by his own deportment and expressions. It is a well understood fact that the friends of Colonel Roosevelt believed that during the interim between the expiration of his last term and the time for another election it would be necessary for him to do something unusual to hold the attention and interest of the American public. It is evident that he has fulfilled all requirements in this respect, and when the Ex-President again touches these shores he will be hailed with much acclaim. It is the opinion of a great many that Mr. Roosevelt is anticipating with much eagerness a triumphal tour of the United States within a year after his return, or during the year I should say. There has been a great deal of dissension among some of the Republican leaders of late and if, at an opportune moment, there should be the slightest hitch and anything go wrong, the Democrats, if alert, would be able to take advantage of the most brilliant opportunity offered in several years and most likely elect a President. It is also a safe conjecture that ere the time comes for the assembling of a convention the Democratic party will have developed some strong and likely Presidential material. Let us hope that we can decide upon a man that can and will lead us to a splendid victory.

The athletic side is just now agog with enthusiasm over the opening of the baseball season in all of the leagues and the coming pugilistic events. The Western League season opened here yesterday and all Denver is baseball mad. While Denver has what is conceded to be one of the strongest aggregations that has represented the City for several years, they lost the opening game by a one-sided score of 7 to 1. However, I look for Denver to make a good showing and finish well up to the front. In the National League I expect Pittsburgh to repeat in the fight for the pennant, and in the World's series as well, with Chicago and Cincinnati as contenders. In the American League I believe that we will see a hard fight between Philadelphia, Detroit and Boston, with a strong likelihood of these three teams finishing in the order named. I have, as yet, been unable to get a good line on all of the teams of the American Association and will withhold my opinion until later. Of course I am "pulling" for Louisville to repeat their triumph of last year.

In the early part of July, close to San Francisco, will be fought what has been termed, whether rightly or not, the battle of the century between Jeffries and Johnson for the heavyweight championship of the world. If Jeffries properly conditions himself and the battle is anything like what is expected I believe that when these two giant gladiators are pitted against each other we will see, not only the battle of the century, but the battle of all time. I will occupy a ringside seat, and if Jeffries reaches anything like his old-time form I expect to see him annihilate the "smoke" in less than twenty-five rounds.

I now find that I have written

a much longer letter than I had any idea of when I started out, and I have no doubt that if I had dwelt more upon the agricultural possibilities of this region and its other resources and not so much upon politics and athletics, it would have been more interesting to some, however, I can take care of that later. Athletics is taking a stronger hold each year upon all classes and ages of people, men and women, and I venture to say, regarding the part of this letter that refers to baseball particularly, I will find many who agree with me.

I expect to start East within the next three weeks and on my trip hope to spend some little time in Columbia. Trusting that I may have the pleasure of seeing my friends at home very soon, and with kind regards and best wishes for every one, I remain now and always,

Very sincerely yours,

Jno. T. Harvey.

Roosevelt a Candidate.

From Vienna comes the following cablegram:

"Mr. Roosevelt denied emphatically today the published statement that he had agreed with Gifford Pinchot that his name might be used in connection with the presidency."

This does not, however, mean that when the time is ripe for announcing his candidacy Theodore Roosevelt will not be a candidate.

The News does not set up as a prophet and claims no honors as a seer, but it is pretty safe to bet that when the psychological moment arrives Theodore will announce himself.

In the meantime the report is that he is to make certain speeches for Beveridge in Indiana and that he will be heard on conservation at Kansas City.

It seems very probable that after about a couple of Roosevelt speeches have been heard "friend Taft" will find out that his sponsor at the last Republican convention and his political creator has fish of his own to fry and is not so good a friend as he used to be.

What doth it profit a Rough Rider if he kill a half dozen bull elephants, a herd of giraffes, and a rhinoceros and a dik-dik or so, without coming home to be re-elected? Theodore Roosevelt, a private citizen, by his own wish. We rather think not! If there is any chance—and there seems to be every chance—that he can get the Republican nomination Col. Roosevelt will be found ready to run, and capable of showing speed.

Milch cows must be scarce. Messrs. Elroy Roe, W. H. Hammonds, Zeno Hammonds and Corbett Breeding were here trying to buy such cattle.

Luther Pelston of Cumberland county was here last Wednesday delivering corn at 80 cents per bushel.

There is some evidence that the Burks ridge whiskey shop is open again. So Mr. Mitchell it is almost time for another good deed.

J. W. McClister and Hiram Stotts did business at Columbia last Thursday.

J. J. England was on the sick list several days last week.

The singing at Independence last Sunday was a success. A large crowd and excellent singing completed the role.

Short Meter Sermons.

It is easy for the putty man to be at peace.

As soon as you have life you have the inexplicable.

When the divine is only a proposition piety is only a history. Hatred is never so loathsome as when it assumes a holy name.

Some who advertise heaven manufacture a good deal of hell. The new day comes by sitting up at night worrying over it.

When your heart feels starved try to take another boarder in. Stress the good in your life and you will forget its distress.

The better the cause the greater the mischief of a base method.

Making the best of that which is wrong is often buttressing an evil.

The easiest arguments to construct are those that follow our appetites.

We can usually trust our friends to discover Providence in our troubles.

Most of us are willing to take lessons in patients at the other man's clinic.

If heaven advertised for gaugers of character half would be on the waiting list.

Garden Notes.

The toad is the gardener's best friend and the injurious insect's worst enemy.

Let a toad abide in the cold frame, it will destroy all bugs.

Tomato raisers save money with a home-canning outfit when markets are low.

Do not plant much garden

truck without a few years experience; it may prove expensive.

That spraying potatoes pays there is no longer doubt.

The best-paying market is the local one, where arrangements can be made to sell directly to the consumer.

Always keep posted on the condition of the market and sell what and when people want.

Weeds take nourishment from the soil garden crops use for making good things to eat.

Don'ts for Churchmen.

Don't forget that a man's faith is his real fortune.

Don't try to irrigate this desert by preaching for tears.

Don't expect to burnish a crown by simply polishing a pew.

Don't forget that charity is not made to go far by spreading it thin.

Don't forget that a little sunshine practice is worth a lot of moonshine poetry.

Don't fail to observe that the more a man hugs himself the smaller he becomes.

Don't fail to learn that fewer despairing Christians makes fewer doubting people.

Don't expect success when trying to listen to God by turning a deaf ear to men.

Don't fail to observe that the piety that is only skin deep is likely to affect the lungs.

Don't overlook the fact that love lifts up only when it is not aware that it is bending down.

Don't fail to note that any

kind of thoughtless charity generally turns into the heartless kind.

A Funny Proposition.

Man comes into this world without his consent and leaves it against his will. During his life on earth his time is spent in one continuous round of contraries and misunderstandings by the balance of our species.

In his infancy he is an angel; in his boyhood he is a devil; in his manhood he is everything from a lizard up; in his duties he is a fool; if he raises a family he is a chump; if he raises a small check he is a thief, and then law raises the devil with him; if he is a poor man, he is a poor manager and has no sense; if he is rich he is dishonest, but considered smart; if he is in politics he is a grafter and a crook; if he is out of politics you can't please him, as he is an undesirable citizen; if he goes to church he is a hypocrite; if he stays away from church he is a sinner and damned; if he donates to foreign missions he does it for show; if he doesn't he is stingy.

When he first comes into the world everybody wants to kiss him—before he goes out they all want to kick him. If he dies young there was a great future before him; if he lives to a ripe old age he is simply in the way and living to save funeral expenses. Life is a funny road, but we all like to travel it just the same.

A Good Forage Crop.

Canada peas and oats is a fa-

vorite forage crop with many New York State farmers. The crop may be sown from early spring to the middle of May. By making sowings at intervals of two weeks, a succession of crops may be had. The common rate of sowing is one and one half bushels of each per acre. The peas are usually scattered broadcast on disked or harrowed ground, and then turned under about three or four inches deep. The ground is then harrowed and the oats drilled a few days later. The land may first be prepared and each crop drilled separately, but this is not usually as satisfactory as the other method. Peas and oats are good for hay or to cut and feed green. When the oats are heading and the peas blossoming one may begin to cut for green feed. For hay the oats should be in the milk stage and the peas should have well formed pods. Peas and oats can also be pastured to advantage with hogs. This crop will give a yield of five to seven tons per acre of green weight.

Lion Fondles a Child.

In Pittsburg a savage lion fondled the hand that a child thrust into its cage. Danger to a child is sometimes great when least regarded. Often it comes through Colds, Croup, and Whooping Cough. They slay thousands that Dr. King's New Discovery could have saved. "A few doses cured our baby of a very bad case of Croup," writes Mrs. George B. Davis, of Flat Rock, N. C. "We always give it to him when he takes cold. It's a wonderful medicine for babies." Best for Coughs, Colds, LaGrippe, Asthma, Hemorrhages, Weak Lungs. 50c. \$1.00. First bottle free. Meeting of the Medical Society.

The Adair County Medical Society, will meet at the Court House in Columbia, on Thursday May 12th, 1910, at ten

o'clock. We want a full meeting. Dr. McChord from Lebanon, the Councilor from the 11th. district, will be here, and we want every doctor in the county to be on hand. We want a public meeting. We want every preacher, every lawyer, every County official, every school teacher, and all who feel an interest in the promotion of the public health to be here, and especially every member of the Fiscal Court. We want the citizens of Columbia, to show the interest they feel in keeping our town at the head of the cities of the United States in health and longevity. Let us show Dr. McChord that we appreciate his coming. The program will be as follows:

Dr. R. McChord, a paper of his own selection.

Dr. W. F. Cartwright, The signs of the times in medicine.

Dr. William Blair, Why should we have Medical Societies?

Dr. U. L. Taylor, Why have a public medical society?

Dr. S. A. Taylor, Should we leave our business to attend a medical society?

Dr. W. R. Grisom, Is it worth while to interest the public in sanitation?

Dr. E. A. Waggener, What benefit do we get from attending Medical Societies?

Preachers, lawyers, and citizens generally, will be invited to give talks on any subject pertaining to sanitation, and the public health.

In Memory.

On the evening of April 18th, 1910, the angel of death visited the home of Mr. and Mrs. William Johnson, of near Gadberry, and claimed for its victim the spirit of little Samuel and took it home to God. He was the only child, the idol of his parents. He was born February 4th, 1909. All was done that loving hands could do to relieve his suffering, but God in His mercy saw fit to take him home to rest where there is no sickness and death and sad parting comes no more. Constipation Cure Free

With the first signs of constipation you resort to the home methods of relief, such as hot or cold water on arising, lots of stewed fruit with your breakfast, etc., but what do you do when these fail?

The majority then start on salts and purgative waters, then change to cathartic pills, etc. If you have gone through these various stages you know they were all useless, so far as permanent results go. Now you are in a desperate straits, but try something practical and sensible, a remedy made and intended for constipation, as thousands can testify. It is Dr. Caldwell's Syrup Pepsin, which is guaranteed to cure in a very short time. Its ingredients are such that by a brief use of it the stomach and bowels are trained to again do their duty. That it will do this Mr. G. F. Dodson of Will Mrs. A. Hampton of Portage, O. is a way to prove these assertions without a penny of expense. Simply send your name and address to Dr. Caldwell and obtain a free sample bottle. If after using it you are then convinced it is the remedy you need, buy a fifty cent or one time to use it for a brief time until cured. The directions are simple and the dose is small. It is pleasant to take, does not grip and is promptly effective, and these statements are guaranteed or money will be refunded.

This remedy is over a quarter of a century old and is personally taken by more druggists than any other similar remedy on the American market. Because of its effectiveness and its pleasant taste it is the ideal laxative remedy for children, women and old people. Dr. Caldwell personally will be pleased to give you any and every assistance for yourself or family pertaining to the stomach or bowels absolutely free of charge. Explain your case in a letter and he will reply to you in detail. For the free sample simply send your name and address to Dr. Caldwell or otherwise. For either request the doctor's address is Dr. J. C. Caldwell, 1100 Caldwell building, Monticello, Ill.

Democratic newspaper devoted to the interest of the City of Columbia and the people of Adair and adjacent counties.

WED. MAY 4, 1910.

The Confederate Veterans of the United States will meet at Little Rock next year.

Emperor William will go in person to the railway station to meet Mr. Roosevelt when the former President reaches Berlin.

For many years Massachusetts has been agitating the election of United States Senator by popular vote. Last Tuesday the measure passed the House.

Hon. John W. Kern was nominated, last Thursday, by the Indiana State Democratic Convention for United States Senator. Tom Taggart was in the running for awhile, but he soon dropped out.

It is positively stated that Mr. Bryan will not be a candidate for United States Senator before the Nebraska Legislature. His reason is that he would not be willing to antagonize local Democrats.

The ninety-first anniversary of the Independent Order of Odd-fellows was duly celebrated at the Masonic Temple, Louisville, last Tuesday night. All the lodges of Louisville, New Albany and Jeffersonville participated.

Mrs. Pearl Armstrong, of New Albany, Ind., charged with killing her husband, was found guilty in the Clark county, Ind., circuit court, at Jeffersonville last Tuesday. She will be given a sentence from two to twenty years.

Judge W. Con Bell, who lived at Harrodsburg, was in a wreck and was instantly killed near Seattle, Wash., Sunday night. His wife was dangerously injured and sixteen other persons.

The talk now is that Mr. Roosevelt will succeed Mr. Dewey as United States Senator from New York. Republican leaders say with the ex-President in the Senate, the troubled waters will be stilled. In our judgment there is not enough power behind that office to suit Teddy.

It comes from a New York paper that Mr. Roosevelt has notified the President that he endorses his administration and is heartily for him for the second term, that he (Roosevelt) will not be a candidate for the Presidency nor for any other office in the meantime.

The Republican Committee which met at Corbin last Saturday to fix a date and name the manner of nominating a candidate for Congress in the Eleventh District, agreed upon a primary and September 15 was named as the date. Mr. Powers' supporters asked for an early date, first Monday in August. Reports to the daily papers stated that Mr. Edwards won a complete victory. Three men were appointed to draft rules governing the primary, their report to be made by the 27th of August. All three are ardent Edwards supporters.

New Livory.

Mr. Hugh Richardson has opened a first-class livery and feed stable in Columbia and is occupying the barn on the side street leading from Greenburg street, known as the Allen Walker barn.

Our old friend and neighbor, Mr. W. T. Moore, of Cane Valley, spent a few days in our midst last week. While uncle Billie is crippled up and cannot get around like a sixteen-year-old, he looks as fine as he did when he lived right in our midst and is just fine company and has a fine memory of things that happened many years ago. We were certainly all glad to see him and enjoyed his company and only regretted that he could not stay longer with us.

A few nights ago some one went to the meat house of Mr. C. C. Stephens and prized the door open and went in and took down a large side of bacon and just a few nights before this same party went into his corn

crib and took our several bushels of corn. In the same community we have heard of several of the citizens losing both corn and bacon. When people get so low down and mean that they resort to this for a living the matter at once ought to be looked into and find the guilty one and have them or him dealt with to the extent of the law.

Strong Hill would like awfully well to know who burnt the canvass off of his tobacco bed.

NOTICE

JORDAN PEACOCK

The best breeder in Kentucky, will make the present season at his home in Gradyville, Ky., at \$15.00 to insure a living colt, sound and right.

JORDAN has sired more colts than any horse in southern Kentucky, and his colts are the ones that bring more money than any others; they are the colts that the farmer gets his own price for; they are the colts that the lovers of fine horses from other States come to this country to buy; they are the ones that have put other stallions out of business in this country. JORDAN is the horse that has stood the test and has proven to be the best. He is the only horse in this country that ever sired a colt which sold for \$700.00 at 2 years old. There have been a number of JORDAN's colts that sold for from \$300 to \$700, and a number of them 3 year old and over sold for from \$500 to \$1,000. Has any other horse's colts in this country sold for half of these prices? If they have, some one will please say something about it through the columns of the News, I want to know where they are? Don't let the other feller make you believe their horse is as good as JORDAN, for you know it is not. Bring your mare to JORDAN and get a colt and a good one.

HIGHWAY:—My fine Jack HIGHWAY is 4 years old and is the best Jack I have ever seen in Adair county. He will serve a limited number of mares at \$10.00 to insure a mare with foal. Plug mares will not be bred to this Jack. All care taken to prevent accidents, but not responsible should any occur.

Money due when mares are traded or removed from the neighborhood. Feed at cost or pasture at 50c per week.

W. L. Grady.
